Handwriting worksheets: 20 entries for OCR testing

1. One worksheet = one legal-pad page. Write the **sheet ID** (HW-01 ... HW-04) in the top corner.
2. Copy each entry in your own shorthand, like you'd really log time. Abbreviations, cross-outs, codes in margins are all fine.
3. Keep the **date, hours, and meaning** the same. Only write CMID / client / matter if the worksheet shows one.
4. Photograph each page and name it by sheet ID (HW-01.jpg). answer_key.csv maps every line to its v2 Time ID.
5. For variety: try one page in a column layout like your Mon/Fri sample and one as a loose list.
